

# Organizational Transformation

## Diagnose and Leverage System-wide Change

Transformation is the new norm for organizations. Use the most powerful set of diagnostics and models for analyzing and effectively enabling change in any organizational setting. The Social Process diagnoses drivers of change within whole systems. The Organizational Journey maps out the evolution over time. The Dynamic Screen provides leveraged strategies for structural, behavioural and values changes.

This course gives facilitative leaders ways to see the whole picture and discern the shifts necessary for your organization to be what it needs to become. The tools will help your organization be dynamically flexible and able to respond quickly. This course provides you with a whole systems approach to leading integrated organizational transformation.
